

ABSTRACT OF THE DISCLOSURE
CELL PHONE MINUTE USAGE CALCULATION AND DISPLAY

A method for providing a cellular phone user with accurate feedback of available minutes in a service plan based on specific plan usage is disclosed. A user enters service plan information including the time period of the plan, the number of peak minutes, the number of off-peak minutes, and other features associated with the plan on his cellular phone. The entered information is stored in the cellular phone's memory. Minute usage is tracked and a display of available minutes is provided to the user.
